1) In the Courses for the term page, I had 2 different buttons, one for Delete and one for Edit. During Development I combined this to one button and named it Edit / Delete Term.

2) In the detailed Course view page, Initially I had icon for share but due to unavailability of free icons, I used Share button instead

3) In the detailed Course view page, I had 2 different buttons, one for Delete and one for Edit. During Development I combined this to one button and named it Edit / Delete Term.

4) Performance Assessment view Page did not have Assessment Code or the Assessment Dropdown. During development I added these fields
